

Referral Reward Program?! Earn a \$25 Gift Card.

MathCON is bringing the referral program in which **you** can receive a \$25 Amazon gift card as a thank you for referring a school who also signs up for our MathCON 2019 Competition!

How does it work?

Tell your friends, family and school contacts to sign up for MathCON! When the school you refer registers (there is a referral line to fill out on the [registration form](#)), and lists you (your name) as a referral along with your email address, you will receive a \$25 Amazon gift card!

There is no limit on referrals though, so take the opportunity to earn as many gift cards as you can until January 22, 2019.

Make sure to read to the end for all the guidelines and rules that apply!

Guidelines & Rules for the Referral Reward Program

- The referral reward is an Amazon gift card valued at \$25 that you will receive via email.
- The referral program officially launches on **December 19, 2018** and ends on **January 22, 2019**.
- All **registered** individuals or schools are eligible to receive a \$25 Amazon gift card for referring a **school** (not individual).
- To be eligible for the referral program the **school** you refer has to sign up, *not an individual*. Thus, an individual may receive a gift card for referring a school, but an individual may not receive a gift card for referring an individual. A school may also refer a school, but a specific point of contact (an individual) for the gift card must be listed.
- To qualify for the referral process, the school registering must submit their school information, a point of contact name, the referrer's name, and the referrer's email address.
- To meet the Referral Reward Program requirements, we will verify that no one else has previously referred the identified school for registration, then we will send out the online Amazon gift card to the referrer's email within 4-6 weeks.
- The process of verifying and sending the online Amazon gift card to the referrer's email will take 4-6 weeks.

Registration

If you haven't signed up yet there is still time! [Register](#) for our MathCON Competition. **Better yet, for being a valued part of our network, we are offering a discount code 'mathcon2019' to receive \$50 off a school registration - lowering the price to \$150!**

Registration is open to all public, private, charter and home-schooled students. One school registration includes an unlimited number of students, OR [register](#) a single student as an individual.

Online testing begins January 22, 2019 and ends March 2, 2019.

Questions?
